Dates of Sacred Events.

We give the following dates of events so sacred to all Christians on the authority of the late Rev Saml. Farmer Jarvis, D. D. L.L. L. an eminent scholar and divine of the Episcopal Church, whose profound learning and diligent researches into antiquities would have

distinguished him in any age.

Our Savior was born on Wednesday, December 25, 5907, Julian period; 193d Olympaid (9th month, 5th day;) Julian year, 39.

He was baptised by St. John in the river Jordan on Sabbath (Saturday) Jan. 6, 3738.

His public cutry into Jerusalem was on Palm Sunday, March 21, 4741, Ju-lian year 73, A. D. 23, 19th year of the associate reign of the Emperor Tiberius; 15th year of his sole reign.

He was betrayed by Judas Iscariot on the following Wednesday evening,

He celebrated the passover and institution the Eucharist on Thursday evening, March 25.

On Friday morning, March 16, at the 3d hour, or 9 o'clock, he was nailed to the cross; the hour when the daily morning sacrifice was offered in the Temple. At the 9th hour or 3 o'clock P. M., when the lamb of the daily evening sacrifice was offered in the Temple, he expired.

At 5 P. M., his body was taken down and deposited in the tomb of Joseph of Arimathea.

On the first Eastern Sunday, March 28, about the beginning of the morning watch, or 3 o'clock A. M., he rose from the dead. It was the morrow after the last Jewish Sabbath when, according to the law, the first sheaf of road on State account. the earliest ripe grain waved in the temple, by which the whole harvest and pledge of the future resurrection of his faithful followers.

On Thursday, May 6, he ascended into Heaven. On Sunday, 8, the day of Pentecost,

the Holy Ghost descended upon the is \$237,371,000. apostles and disciples.

He Did'nt Take the Papers.

On Thanksgiving day, of course, the places of business in our city were all closed and our streets presented a Sunday like appearance. Our country friends who trade in town, stayed at home, and, we presume, ate their fat turkey and enjoyed themselves as only country people can. One man, however, from some out-of-the-way place, came to town with a load of produce, anxious to convert it into greenbacks. He observed that all was quiet on the streets and his the only wagon visible. Seeing one of our citizens on the street he accosted man informed him that it was Thanksgiving day and asked him if he did not scribe for a good county paper.

We are looking for him to came to the Republican office every day.— Stark Co. Republican.

Ir appears from the latest advices that the cattle plague is still spreading in some parts of England. The markets at Colchester and Ives have been closed, and will not open until the end of January, by order of the local governments, and the disease is also spreading at Brackord, Yorkshire, and the counties of Buckinghamshire, Cumber land, Essex, Suffolk, Herefordshire, Huntingdon shire, and Worcestershire.

A letter to the London Times says: "By the last returns issued the number of deaths may be estimated at 40,-000. There are upward of 5,000 attacked weekly. We are therefore losing each week sufficient for 10,000,000 persons for one day."

It would appear that our law prohibeen passed none to soon.

What is a Darling !

A leading question, but herein prettily answered. No one but a father or brother could have written it.

A darling is a dear little beaming girl who meets one on the door step; girl who meets one on the door step; President Jeremiah Day of Yale College who flings her fair arms around one's heads the catalogue. He is 93 years of age, neck, and kisses one with her soul of having been born August 3, 1772. love; who seizes one's hat, who relieves one of one's coat, and hands the tea and toast so prettily; who places her elfish form at the plano, and warbles forth, unsolicited, such delicious songs; who casts herself at one's footstool, and clasps one's hand, and asks eager unheard of questions, with such bright unheard of questions, with such bright eyes and flashing face, and on whose light, flossy curls one places one's hand and breathes, "God bless her," as the fairy form departs.

EVERY SATURDAY: A Journal of Choice Reading, SELECTED FROM FOREIGN CURRENT LITERATURE.

Much of the best literature of the day is found in the

Much of the best literature of the day is found in the English and Continental magazines and periodicals; and it is the design of the Publishers of this new journal to reproduce the choicest selections from these for American readers, in a form at once attractive and inexpensive. The Publishers believe that such a journal, conducted upon the plan which they propose, will be not only emericaning and instructive in itself, but interesting and valuable as a reflex of foreign periodical literature of the better class.

Event Sarumax is intended for Town and Country, for the Fireside, the Seawide, the Railway, and the Steamboat. Its plan embraces Incidents of Travel and Adventure, Essays Critical and Descriptive, Serial Tales Short Stories, Poems. Blographies, Literary Intelligence, etc., in connection with judicions selections from the admirable popular papers on Science which are constantly appearing as foreign periodicals. The value of these papers arises from the fact that scientific solicets, however harsh and dry in themselves, are here treated in so graphic and picturesque a style as to charm the reader while instructing him.

It will be, in short, the aim of its Publishers that Event Saturnay shall commend itself by its freshness and variety to all classes of intelligent and cultivated readers.

Event Saturnay will contain each week thirty-two

readers.

EVERT SATURDAY will contain each week thirty-two

In poor, low-spirited animals, it has the most beneficial effect.

The use of them improves the wind, strengthens the Appetite, and gives to the Horse a fine, smooth and glossy skin—thus improving the appearance, vigor and spirit of this noble animal. FOR MILCH COWS.

The property this Powder possesses in increasing the quantity of Milk in Cows, gives it an importance and value which should place it in the hands of every person keeping a Cow. By actual experiment it has proven that it will increase the quantity of Milk and Cream twenty per cent., and make the Butter firm and sweet. In fattening Cattle, it gives them an appetite, loosens their hide and makes them thrive much faster.

In all Diseases of the Swine, such as Coughs, Ulcers in the Lunga, Liver, &c. By putting from half a paper to a paper of these Powders in a barrel of Swill, the above Diseases can be cared or entirely prevented. By using these Powders the log Cholera can be prevented.
